

## Go for a scenic hike in the old agriculture area of Corsica and enjoy the magical views of the coast

As the name indicates, it is an old farmer area that we will hike during parts of the day. We start our hike by passing some old olive groves, orchards and cactuses. We will then reach the highest point of the hike with a breathtaking view of the bay and the sea. After that we will eventually come to the shore line where the hike continues next to the ocean. While we are hiking along the ocean, we will pass a forgotten swimming area. By then, it's time to bring out our lunch packages and swim wear. After a refreshing swim and a well-deserved lunch break, we will hike the last part back to the bus.

During the day we will climb an altitude of 200 m and the hike takes approximately five hours.

### HIGHLIGHTS

- Experience the beautiful nature of Desért des Agriates
- Spectacular view of the bay
- Swim in a hidden area of the north coast
- Ostricioni beach visit
