Volcano Hike

Climb Guadeloupe's highest peak, experience the dramatic volcanic landscape and enjoy magnificent views across the island.

We leave the hotel in the morning and travel to Saint-Claude, where the minibus takes us to an altitude of approximately 900 metres. From here, you will begin the guided hike towards the summit of La Soufrière, rising 1,467 metres above sea level.

The trail passes through lush rainforest, changing landscapes and impressive viewpoints. Near the summit, you may see smoke rising from the volcano and smell the volcanic fumes. After the descent, there may be an opportunity to relax in a warm volcanic spring.

HIGHLIGHTS

- ✓ Hike up an active volcano
- ✓ Spectacular island views
- ✓ Explore safely with a guide
