

Whale watching in the Caribbean Sea

Set out from Deshaies for an unforgettable morning at sea, searching for whales and dolphins in the waters around Guadeloupe.

Set out across the Caribbean Sea in search of whales and dolphins in their natural habitat. From the port of Deshaies, we head west towards the deeper waters, where curious dolphins often swim alongside the boat and whales may appear beneath the surface.

Wildlife sightings can never be guaranteed, but the waters around Guadeloupe are rich in marine life and offer excellent opportunities to encounter these remarkable animals. Along the way, you will learn more about life beneath the surface and why protecting the ocean and its wildlife is so important.
