

Hike in Désert des Agriates

Go for a scenic hike in the old agricultural area of Corsica and enjoy the magical views of the coast

As the name indicates, this region is a former farming area that we will explore on foot. We start our hike by passing some old olive groves, orchards and cacti. We will then reach the highest point of the hike with a breathtaking view of the bays of the area and the sea.

We then descend to the beautiful Ostriconi beach where it's time to bring out our lunch packages and swimwear. After a refreshing swim and a well-deserved lunch break, we will hike the last part back to the bus.

During the day, we will walk 10 km with an elevation gain of approximately 200 m. The hike takes around five hours.

HIGHLIGHTS

- ✓ Experience the beautiful nature of Désert des Agriates
- ✓ Spectacular view of the bay
- ✓ Ostriconi beach visit
