

Hike in the Bonifatu Forest

Experience the breathtaking nature of Corsica by foot and swim in the fresh water of the Figarella river

Corsica is famous for its many beautiful hiking routes. A few of them are found in the forest of Bonifatu. The forest is situated less than a one hour drive from Calvi and Ile-Rousse.

We walk around 6 km and about 250 height meters surrounded by high mountains, tall trees and beautiful nature. This hike also meets a section of the infamous GR20 hiking trail.

The first part of the hike climbs steadily uphill and then we walk downhill towards the river. After the hike we stay by the Figarella river for a well deserved lunch break, and, if you dare, a refreshing swim in the river! Lunch pack is included.

HIGHLIGHTS

- Breathtaking views of the mountains
- River with crystal clear water
- Exceptional forest wildlife
