

Go for a scenic hike in the old agriculture area of Corsica and enjoy the magical views of the coast

As the name indicates, this region is an old abandoned farming area that we will hike during parts of the day. We start our hike by passing some old olive groves, orchards and cacti. We will then reach the highest point of the hike with a breathtaking view of the bays of the area and the sea.

After that we will eventually descend the beautiful Ostricioni beach where it's time to bring out our lunch packages and swim wear. After a refreshing swim and a well-deserved lunch break, we will hike the last part back to the bus.

During the day we will walk 10km, climb an altitude of 200m, taking approximately five hours.

HIGHLIGHTS

- Experience the beautiful nature of Desért des Agriates
- Spectacular view of the bay
- Ostricioni beach visit
