

Visit hidden beaches and one of Corsica's most beautiful beaches, Plage de Saleccia

Experience isolated beaches and one of Corsica's most famous beaches, Plage de Saleccia. All of these beaches are only accessible by boat, off-road cars or a long hike and therefore the area is completely undeveloped. The only sounds you can hear on these beaches are the chirping of cicadas in the groves of Corsican pine or the mooing of a handful of chestnut-coloured cows that occasionally visit the beach.

We will first walk down to the harbour of Ile-Rousse. From here we will have a short boat ride along the beautiful coastline which gives you amazing views over the landscape and hidden beaches. We will make two stops at small, isolated beaches along the way.

Here you can swim in the crystal clear turquoise water, hike along the coast, relax on the beach or watch the boats passing by, the choice is yours!

HIGHLIGHTS

- Visit one of Corsica's most beautiful beaches
- Go by rib-boat along the coast line and see a lot of beautiful hidden beaches
- Experience the landscape of Désert des Agriates
