

Via Ferrata with Zipline

A challenging climb up the mountain and an exciting zipline trip down

Via Ferrata is not easy- but it is extremely fun and challenging. The company we work with, in terra Corsa, have the biggest Via Ferrata and zipline parc in Corsica. You begin with Via Ferrata; climbing while attached to wire, making your way up the mountain, sometimes helped by built-in steps and ladders. The environment is remarkably beautiful and the view is magnificent as you climb higher and higher up! After reaching the top, you zipline the entire way down the mountain with spectacular views up and down the valley.

It is possible to do a family friendly Via Ferrata. Ask the guides for more information. There are also a few different levels of climbing, from intermediate to hard all the way up to extreme! Ask the guides for more info and what level may fit you best.

HIGHLIGHTS

- Different levels available
- 5-7 different ziplines
- Beautiful surroundings
